

FOREVER IS...

- collecting seashells at Anastasia State Park while stilts and plovers pick through the sand
- catching a wave or a snook at Sebastian Inlet State Park
- hunting snipe in the early morning on Corbett Wildlife Management Area
- snorkeling with the damselfish on John Pennekamp coral reef
- a manatee kissing your dive mask at Three Sisters Springs
- photographing pitcher plant panoramas at Blackwater River State Forest
- jumping Vortex gap on the Cross Florida Greenway Santos bike trail
- gliding past a 10-foot alligator under a 500 year-old cypress on the Wakulla Springs river boat
- touching the emerald green water and sugar sand of St. Andrews State Park
- paddling through primeval mangroves on the Charlotte County Blueways

Florida Forever? It's up to you.

Jonathan Webber

RJ Willey

FOREVER? Florida Forever received no funds for this year and has received only \$15 million the last three years, *more than a 98% cut of its normal funding level*. The Legislature is now building the state's budget for next year. Help ensure that Florida continues to buy the critical environmental and outdoor recreation lands that provide our clean water and support the tourism-based economy.

February 15 is Florida Forever Day

Call or email your state senator and representative on February 15 and ask them to fund Florida Forever for at least the \$15 million requested by Governor Scott. Ask your family and friends to call also; post it on Facebook. Show the Legislature that citizens believe Florida Forever is essential to Florida's future.
